Plans Outlined for Poultry Organization

The Santa Rosa Republican of last Saturday published the plan outlined by Otto Freisinn of the Plymouth Poultry Yards, for the formation of a poultry association in this county, which was recently presented to a mass meeting of poultrymen at the county seat. The plan as outlined was chosen from three plans submitted, and it was believed to be the and most comprehensive of the scheme presented. Mr. Freisinn is one of the most experienced poultry man in this section and probably has the most valuable plant in Sonoma county. It is probable that the new organization will take over the business of the Santa Rosa Poultry Association. The plan outlined and adopted is as follows:

Mr. Chairman and Gentlemen:

Let me state to you a few plain facts all of which have bearing on the issue at hand:

1 The so called Dairy Exchange of San Francisco is composed of a body of speculators to whose interest it is to buy your eggs at the lowest possible prices for cold storage purposes.

2. They have entire control of the egg market in San Francisco and you are obliged to sell your product according to quotations made on the Exchange; that said quotations are made contrary to law is obvious to all of us, but so far we have been kept too busy making both ends meet to look the matter up.

3. That we cannot continue in business successfully under such conditions is a fact you must all be convinced of by this time, and to find a away and means to overcome them is the object of this meeting.

4. That you cannot overcome them by a go as-you please co-operation, or fighting among yourselves, has been proven this past eight years, and in order to succeed, you will have to adopt modern business methods instead of co-operation methods.

5 The issue at hand involves several million dollars worth of poultry and eggs per year, and to cope with it successfully requires capital and efficient management; if you do organize in a regular company, you may want, or for that matter, be oblige to put eggs in cold storage; it it will also be advantage to you to buy your feed and for that matter, everything else you may need in the business, in large quantities for cash.

6. In a co-operation or any other loose organization, a member will vote aye on nearly every motion made, for the simple reason that he has nothing at stake, and merely follows the lead of the member making the motion, although the same motion may lead him into the hands of the Dairy Exchange.

7. For a member to become interested on any question he is voting on he must have something at stake financially; this brings us back to the point that you will have to organize on the same lines of business as a bank, factory, mine, etc., is conducted on, because no man of business methods will invest his money unless he is reasonably certain it will net him a dividend and never will he invest a cent unless he can hold some one legally responsible for the spending thereof.

8. In the present issue it is not merely a question of investing your money, it is a question of your very existence in the business you are engaged in—a question in which your very manhood is at stake—for no man nor body of men will submit tamely to the methods employed by the Dairy Exchange. Individually you cannot accomplish anything and your only alternative is, either to quit the business or work for your masters at the other end of the line. But as a large body of men, solidly organized in a regular business of selling your product direct to the consumer if need be, you will succeed.

9. There are two ways of raising capital sufficient to handle your own eggs during cold storage season, and to handle the business generally: One way is for each member or share holder to put up say from $50 to $100; the other, by a levy to say 10 cents per case The latter way would, in my opinion, be the most satisfactory, as it would enable one and all to join the company, which is really the main point, for in order to succeed, all the poultrymen, or at least a good majority of them, will have to form in line, otherwise the middlemen will play one faction against the other, which would cause lots of trouble, if not failure.

10. Shares issued should be non-transferrable and obtainable only through the sale of eggs and poultry by each member, through the company. But any member should have the privilege to take up to $100 in stock by paying cash for same at any time.

11. In case a member retires from business or sells his property, the company should be obliged to buy his shares at part value, but at no other time, or for any other reason, should the company be obliged to buy a member's shares, and if a member becomes dissatisfied and quits the company, he forfeits his shares in the business This would prevent members from running to cover at the first sign of a storm, and if the company is formed, it will have to weather several.

12 Last, but not least, you must bear in mind the law of supply and demand. When we hatch and raise chickens by the tens and hundreds of thousands, the market is bound to weaken. But in that case give the consumer the benefit of it, and he will get in the habit of eating eggs and poultry, and the demand for your product increases accordingly.

To be brief, there are about 2000 persons engaged in the poultry business in Sonoma county, who support about 100 middlemen. The producer has nothing to say as regards prices for whatever he sells or buys; on the other hand, every party he has any dealings with is a member of some trust or combination of some kind. Ought not common sense to teach us to do otherwise and follow suit?

Write For Seeds

The annual allotment of seeds to members of Congress by the Bureau of Plant Industry, U. S. Department of Agriculture, has been made. Congressman Kent has received a letter from the Chief of the Bureau stating that plans have been perfected for the congressional distribution of seeds and plants for the next season, and that he has been alloted 20,000 packages of vegetable seeds and 2,000 packages of flower seeds. In order that none of these seeds may be wasted by being sent to people who either cannot or do not wish to use them, Mr Kent has decided not to send out the seeds indiscriminately, as is the common practice, but to send them only upon application. The readers of this paper who desire seeds, either flower or vegetable, for use, are requested to send their names and addresses to Congressman William Kent, House Office Bldg., Washington, D. C, with a request for seeds, stating the variety, quality and quantity desired. These requests will be filled in the order they are received, and as long as the allotment lasts.

Insects to Wage War on Black Scale

A shipment of African parasites was received by the State Horticultural Commission by parcels post, and will be used in the State's crusade against fruit pests These parasites were sent to California to wage war on the black scale, an insect that attacks all kind of citrus fruit trees and also olive trees. The shipment has received from Professor Charles H. Lunsbury of Cape Town, South Africa, who sent the precious bugs to E. K. Carnes, who has charge of the State Insectary in Capitol Park

These little fellows are small flies, and their scientific name is Aphicus Lunsbury. They will be fed and bred in the insectary, and when a few colonies have been established they will be turned loose on the black scale in California. This particular bug eats the half-grown scale, getting them before they get big enough to breed or cause much damage to trees and fruit.

'What is a Friend?"

When things break right for you, when you can wear tailor-made glad rags, smoke three-for a quarter, drink champagne and tell the chauffeur to bring the benzine buggy around to the club at 3:30:—well you won't want for friends.

When a man has a golden hod he doesn't have to carry it. There are plenty to drink his champagne and help to spend his washers. He's all aces as long as the gold coins rub together in his purse, and his friends will stay by like flies around the molasses barrel.

But such friends are only the royal flush variety and the minute you hit the chutes they will quit you as rats quit a sinking ship. As Ella Wheeler Wilcox says:

"Drink and the gang drinks with you,
Swear off and you go it alone."

But once in a while a real friend will bob up, one of those thousand year friends, eighteen karat, solid gold, who will stay with you until there is good ice skating in the warm place.

And if you have such a friend, keep him, merit his friendship. They are few and you don't want to waste them.

In this game from shuffle to cash in, better known as life, there are times when the most of us will get up against the ragged edge, up against conditions that will have us facing sideways, and where everything goes dead wrong. And this is the time that separates the fair day and the stand by friends. I'd rather have one man who would come across when I whistled, one friend who would stay by whether it shone or snowed than an army of the champagne guzzlers who fade away like Diaz's friends.

The man who stands by when you couldn't buy a cupful of water it the Willamette river was offered for a quarter; the fellow who goes against the collar with you and helps you to pull out—that's the kind of stuff.

The sunny-day friends are leeches, not friends. They hang around until the drinks and lunch are served and then hike out. They are of just about as much weigh as a feather fan in stopping a cyclone or a lunger in a prize fight. It's almost worth going broke to get rid of them.

But the man who will always back your pay, who is there with the help when you are trying to come back to life. He's the friend. keep him. —Exchange.

Has Passed to Her Reward

At Berkeley June 1, occurred the death of Mrs. Emily Valenza, stepmother of Charles Valenza, formerly of this city.

The deceased was 50 years of age, and was a native of England. She had many friends in Sonoma, having on many occasions visited here when her step-son was the proprietor of the barber shop now conducted by Jack Still.

Petroleum and Man

Some one has said that the difference between a pessimist and an optimist is that the former finds fault with nature for putting thorns on roses, while the latter thanks her for putting roses on thorns. In any case the pessimist is always on hand to talk about any new project or improvement in his community whether he knows anything about the matter or not.

For example take the oil question. How many residents in this valley know the first thing about surface indications of oil? Probably four at the most. Yet there are several who have worked against the proposition, and these same few—thanks be it that there are only a few—would not know oil unless they could smell, taste or burn it in its refined state.

Then too, there are others who can't see how they are interested in the project as they have no land to lease and not looking for a job, yet they forget that if oil is found their property is doubled in value and prosperity rules supreme. Aside from all of this, look at the many uses of oil and realize that quantity means competition and low prices.

"What is petroleum to me?" asks an Iowa farmer. With this question still troubling his mind, he proceeds to oil his automobile with a "Standard Oil" lubricant and to fill the tank with "Standard Oil" gasolene.

He walks to the barn and tells the hired man to rub "Standard Oil" hoof oil into the bay pony, to soften the new horse collar with "Standard Oil" harness oil and to put "Standard Oil" axle grease on the wagon.

Then he returns to the house, where he finds his wife cleaning a dress with "Standard Oil" benzene and "Standard Oil" parowax. After washing his hands with "Standard Oil" naptha soap and rubbing a little "Standard Oil" vaseline upon his sore thumb, he lights a "Standard Oil" Rayo lamp, filled with "Standard Oil" kerosene, and goes to the cellar for a pot of jam, which is sealed with "Standard Oil" paraffin.

His wife boils some water on a "Standard Oil" cookstove and opens a box of biscuits that have been kept fresh in "Standard Oil" waxed paper. After lunch they ride to town over a road that is dressed with "Standard Oil" road oil, to order a five gallon can of "Standard Oil" form oil for the concrete milkhouse that he is planning to start next week.

"That is what I'd like to know," he says, as he makes a note with a "Standard Oil" carbon pencil. "What is petroleum or Standard Oil to me?"—Wall street Journal.

Convent Closing Exercises

Tuesday evening the Thirtieth Annual Closing exercises of the Presentation Convent school was held in Union Hall, which was tastely decorated with flowers.

The program consisted of instrumental and vocal music; solos, duettes and choruses. A scarf drill by the Senior girls, a song and drill by the Junior girls, a march song by Senior boys, and a song and dance by the Junior boys. All of which showed careful training and each number was so well rendered it deserves a special mention, which space forbids us to make.

The evening was enlivened by a side splitting farce and was the cause of much laughter. It was entitled, "A Pritty Pickle"; the cast of characters were: Miss Rebecca Pease, Miss M. Gericke; Mrs. Gabble, Miss M. Walsh; Jennie, Miss D. Marmori; Bessie, Miss A. Kiser; Sadie, Miss F. Green; Juno, Miss M. Baccala.

The hall was crowded to overflow and the Sisters of Presentation Convent were shown to what extent the people of Sonoma valley appreciate their efforts.

Those upon whom were conferred graduation honors were: Amelia Cucci, Mary Pinelli, Cecilia Dowdall and Gilia Dal Poggetto.

Grammer school certificates were conferred on Dorothy Carmody, Mary Nessi, Olivo Maffei and Matilda Bacca'a. Palmer diplomas for excellence in business penmanship were awarded to Misses Mary Nessi and DeMartini.

Mass Meeting

The people of Sonoma are invited to meet at the City Hall, Sonoma, Monday evening, June 12, for the purpose of arranging for ways and means of assisting the Woman's Club to hold a celebration on Independence day.

The object of this meeting is to arrange for a parade and other attractions for the day. All patriotic citizens of Sonoma and Valley are expected to attend this meeting as it will mean much for our city to make this celebration a success. Give it a start and prompt and mutual action will win out.

City Council Meeting

Wednesday evening the City Council held its regular monthly meeting with M. E. Cummings, chairman; John Wagner, R. McDonnel and Chas. DalPoggetto, as trustees. Minutes of former meeeting were read and approved.

Miss Wooster appeared before the board and requested that the city replace the cement drive way to her lot on Broadway, which was removed when the street was graded. The matter was referred to the Street Committee.

The following bills were presented and allowed:

Sonoma Valley Co, (2 mos.)	$101.05
J. Gottenberg, auto hire....	40.00
A. W. Adler, lumber.....	7.07
L. Green, lumber and cement	24 00

H. Proler, labor.....	5 50
Mrs J. A. Poppe, supplies.	1 35
N. V. V. Smyth.....	87.75
Total.....	$527 49

The city surveyor suggested that on account of the many trees on the east side of Broadway, the City Council permit the sewer line be made on either the east or west side. Resolution made to that effect.

The City Marshal made a report showing that he had collected during the month of May one merchants' license of the fourth class, amounting to $2.00; three peddlers' license amounting to $6.00; a license for a Skee Ball game for $3 35. Total $11.35.

A communication from the Woman's Club requested the city to assist the club in the proposed Fourth of July celebration. It was decided that the council hold a mass meeting at the City Hall Monday evening.

The terms of office of Library Trustees. Piatt and Rambo having expired, the chairman re-appointed Mr Piatt, and as Mr. Rambo requested that he be allowed to resign from the board, Jesse Prestwood was appointed to succeed Mr. Rambo.

The question who were the proper officials to superintend the building of the Carnegie Library was brought up, the statutes governing being somewhat vague, it was decided to refer the matter to the Attorney General.

No further business appearing, the board adjourned until Tuesday, June 12, at which time they will meet with the library trustees and discuss library matters.

Step Father Shoots

Arthur Muehl, of Sebastopol, was shot twice in the abdomen late last Monday afternoon by his step father, Savior Halterback, and the later was lodged in the county jail by Deputy Sheriff Fred W. Matthews of Sebastopol. The shooting followed a quarrel over the death of some chickens.

Halterback and his family, consisting of his wife, the lad who was shot, aged about 18 years, a boy 8 years, a girl 4 years and a child of 18 months recently came to Sebastopol from the vicinity of San Francisco. They came some months ago to this state from Chicago, which had been their home for many years. The man who did the shooting was 61 years of age, and his wife is a younger woman.

Young Muehl was removed to the Mary Jesse hospital as soon as possible after the shooting, where he is dangerously low. There is a hope of his recovery, but it is a small one as the intestines are badly cut by the two bullets which plowed their way through the anatomy of the young man. On Tuesday morning he was still alive, and doing as well as could be expected.

The Bishop of Ballarat

Friday evening last a large and enthusiastic crowd gathered in Union Hall to witness the bishop of Ballarat, presented by the scholars of the local High School. The hall was crowded to overflowing, and a goodly number coming in late, were forced to remain standing, the seats having all been sold.

Fred Duhring, as Jones, acted well his part and won many encores, while Ebenezer Goodly was presented by George Chase.

Miss Emilie Poppe, as Mrs Goodly, acted well her part, and Miss Lydia Regusci, as Alvina, Mrs. Goodly's sister, did splendidly. Miss Marjorie Buchan, as Helma, a servant, made much merriment by her witty sayings.

The characters of Antony Goodly, by Harold Weise, Richard Heathelry, by Rudolph Wagner, Thomas Holder, by Geo. Carpenter, Wm. Bigbee, by Ray Poppe, Henry Fuller, by Wiley Allison, Lizzy, by Clara King, Ebenezer's daughters, by Miss Myrtle Minkle and Miss Georgia Andrews, were well sustained and supported the principles well.

After the play dancing was enjoyed by all until a late hour.

Woman's Club Notes

At the regular club meeting last Friday the list of members was increased by three new names.

The fourth of July Committee reported an excellent program for the day's celebration, details for which are being rapidly arranged. The day will be royally celebrated, and a good sum of money will certainly be forth coming to aid the new library building.

The President, Mrs. Hotz, gave a most interesting report of her trip to Long Beach and the annual meeting there of the State Federation. One of the chief points of interest was the indorsement by the Federation of the Equal Suffrage resolution. To quote from the last copy of "The Federation Courier"—"The Federation has always stood where it stands now, committed to and bringing its great power and influence to bear upon everything which makes for the betterment, the enlightenment, the up lift of women, and through them, of the home, the community, the nation, and just now, at the demand of the situation, it has announced its faith in the greatest power for achieving this end,—votes for women."

Next Friday will be Social Day, and the last regular meeting before the July vacation. Mrs. R. E. Murphy will be hostess for the afternoon, and Mrs. W. F. Clewe will have charge of the program.

A Card of Appreciation

We, the undersigned, herewith desire to express our sincere thanks for the great kindness shown by our many friends in Sonoma and environs, relative to our late school entertainment.

Thanks are especially due to Mayor Cummings for his personal supervision of Union Hall; to Mr. and Mrs. F. Keonig for great favors of accommodation; to Mr. L. Green for generous loan of lumber and aiding at entrance; to Miss Emily Kearney for self sacrificing interest regarding the providing of refreshments, and to other very kind ladies who were her very hard working auxiliaries, Mesdames Gericke and Murray; to Mr B. Darling and kind friend, who worked so hard to make the staging presentable; to Mr. Joseph Dowdall for undertaking the onerous position of entrance keeper, and also for generous donation of music for dancing; to Mr. Nichelini and Master Olivo Maffei for kindness in loaning express and hauling furniture. All have combined to make the entertainment a success, and to all, collectively and individually, thanks are again expressed.

In the Superior Court of the State of California, in and for the County of Sonoma.

A. T. CASSON, Plaintiff,
vs.

Archibald Tennent, Isabella Eva Tennant, John Tennent, Archibald P. Tennent, Samuel J. Tennent, Samuel J. Tennent, Benjamin D Vasser, Thomas Spriggs, John Spriggs, The Mayor and Common Council of the City of Sonoma, and also all other persons unknown, claiming any right, title estate, lien or interest in the real property described in the complaint, adverse to Plaintiff's ownership or any cloud upon Plaintiff's title thereto, Defendants.

Robert A. Poppe and R. F. Crawford, Attorneys for Plaintiff.

This action is brought in the Superior Court in and for the County of Sonoma, State of California, and the complaint in said action is filed in the office of the County Clerk of said County, who is Ex Officio Clerk of said Court.

The People of the State of California send greetings to Archibald Tennent, Isabella Eva Tennent, John Tennent, Archibald P. Tennent, Samuel J. Tennent, Samuel J. Tennent, Benjamin D. Vasser, Thomas Spriggs, John Spriggs, The Mayor and Common Council of the City of Sonoma, and also all other persons unknown, claiming any right, title, estate, lein or interest in the real property described in the complaint adverse to Plaintiff's ownership or any cloud upon the plaintiff's title thereto, Defendants.

The plaintiff above named, has brought an action against you, and each of you, in the Superior Court in and for the County of Sonoma, State of California, entitled as above, and has filed the complaint in said action in the office of the County Clerk of said County, who is ex-officio Clerk of said Court.

And you are, and each of you is, hereby directed to appear and answer the complaint in said action within ten days after the service on you of this summons—if served within said County; and if served elsewhere and without said County, then within thirty days after service of same upon you.

And you are hereby notified that unless you so appear and answer as above required, said Plaintiff will take judgment for any money or damages demanded in the complaint, as arising upon contract, or he will apply to the Court for any other relief demanded in the complaint.

The real property affected by said action is situate, laying and being in the former Pueblo of Sonoma, County of Sonoma, State of California, and bounded and particularly described as follows to wit:

Lot numbered 252 the East half of Lot numbered 253, the Street (Fifth Street East) between Lots 253 and 262 on the West, and Out-Lot Number 500 on the East, and the Street, (Spain Street) between Lot 253 on the North and Lot 262 on the South.

The object of said action is as follows:

1. To oblige the said Defendants to set forth the nature of their claims in and to said lands.

2. To obtain a decree of said Court whereby all claims of said Defendants, all and singular in and to said lands, adverse to the said Plaintiff's ownership thereof, shall be determined.

3. To obtain a decree of said Court declaring and adjudging that said Plaintiff is the owner in fee simple of said lands, and that said Defendants, all and singular, have no estate in or to said lands, or any part thereof thereof.

4. To have said Defendants, all and singular by said Court, forever enjoined and debarred from asserting any claim whatever in or to said lands, adverse to said plaintiff.

5. To obtain an award and allowance by said Court to said Plaintiff of his costs in said action, and to obtain such other relief as in the premises shall to said Court seem meet.

(SEAL.) Given under my hand and the seal of the Superior Court in and for the county of Sonoma, State of California, this 7th day of March, A. D. 1911.

W. W. FERGUSON, Clerk of said Court.

You soon will see

Is just as neat as she can be.

The reason why

You soon will spy:

CHI-NAMEL is her old standby.

CHI-NAMEL is a liquid finish for floors, interior woodwork and furniture that is far superior to any other made. It is used by the Chinese to give that fine brilliant finish to their bamboo and other wares, which withstand bending and banging, without cracking or marring the brilliant and glossy finish.

It comes in all the hardwood finishes, such as Oak, Walnut, Cherry, Mahogany, Rosewood, Satinwood, etc., and will withstand hot and cold water and soap.

We will boil it in water for you or pound it with a hammer, and will guarantee that what we sell you will stand the same test.

THE SECRET OUT.

To refute the many false and malicious attacks, bogus formulæ and other untruthful statements published concerning Doctor Pierce's World-famed Family Medicines, the Doctor has decided to publish all the ingredients entering into his "Favorite Prescription" for women and his equally popular tonic alterative known as Dr. Pierce's Golden Medical Discovery. Hereafter every bottle of these medicines leaving the great Laboratory at Buffalo, N. Y., will bear upon it a full list of all the ingredients entering into the compound. Both are made entirely from native roots, of rare medicinal value. The ingredients of the "Golden Medical Discovery" being Golden Seal root, Queen's root, Stone root, Black Cherrybark, Mandrake root and Bloodroot. The "Favorite Prescription" is prepared in a similar manner, from Blue Cohosh root, Lady's Slipper root, Unicorn root, Golden Seal root and Rattleweed root, these ingredients being macerated for a long time at a rather high temperature in a menstruum composed of chemically pure glycerine, of proper strength. The exact working formula for making these medicines cost Dr. Pierce and his collaborating Chemists and Pharmacists many years of study and experiments, but as perfected they produce almost perfect pharmaceutical compounds, embodying all the active medicinal principles residing in the ingredients employed, and this, too, in such form and combination as to keep unchanged in any climate. Thus the use of alcohol is entirely avoided.

PROOF POSITIVE.

Without solicitation, Mrs. H. Harrison, of 112 West 3d Street, Sioux City, Iowa, wrote us as follows:

"I suffered for more than seven years with a very complicated form of female trouble accompanied with nervous prostration, and after doctoring with six physicians (all bearing excellent reputations), was informed that unless an operation was performed I would be an invalid all my life. Hearing of the wonderful cures effected by Dr. R. V. Pierce's remedies, and believing that there must be a cure for almost every ailment, I determined to make one more effort. I wrote to Dr. Pierce, and I will never forget his kindly advice, telling me to follow his instructions faithfully and not to submit to an operation. I commenced to improve after six weeks treatment, and in five months my improvement was so noticeable to friends that they began to inquire about my method of treatment. I was pleased to tell them of the wonderful means of cure that I had most fortunately found, and, as so many ladies applied to me for information regarding Dr. Pierce's world-famed medicines and his plans of treatment, I felt in duty bound to give them the benefit of my experience, so, told them the facts. The large number of positive cures effected by Doctor Pierce's remedies alone, used by my recommendation, seemed, in one year's time, nothing short of a miracle. I couldn't have believed it had I not seen the parties and known the facts."

Dr. Pierce's Pellets. Good temper is largely a matter of good health, and good health is largely a matter of healthy activity of the bowels. Dr. Pierce's Pleasant Pellets cure constipation. They are safe, sure and speedy, and once taken do not have to be taken always. One little "Pellet" is a gentle laxative, and two a mild cathartic. They never gripe. By all druggists.

The steamer Voltaire, fitted as a cold storage vessel, left Buenos Ayres on June 1st with the first cargo of grapes ever shipped from the Argentine Republic to New York, and the first oranges ever shipped from Brazil to this port. The grapes are said to be unusually fine, being 700 miles from the coast and 2,300 feet above sea level from a district which has been noted for its grapes since 1561 The shipment is an experiment.

A rich ledge of gold has been uncovered on the Allen Frazier claim, about twenty miles from Cloverdale and five miles from Annapolis. The claim is owned by Thomas Throop, Aaron Wenberg and William Head of Oakdale, was the first to stumble on the ledge, which is said to assay $18 per ton.

BREVITIES

This is going to be a great year for the bean growers of Orange County. Prices are going to be way up, and the fact that nine inches of rain has fallen since January 1st assures them a good crop. Already buyers are in the field anxious to make contracts for beans that will not be planted until June. Independent buyers are offering growers as high as $4 50 and $4.60 for the season's output. Last year when the buying season opened contracts for $3 55 per 100 pounds were offered by the buyers.

A Charming Woman

is one who is love'y in face, form, mind and temper. But its hard for women to be charming without health A weak, sickly woman will be nervous and irritable. Constipation and kidney poisons show in pimples, blotches, skin eruptions and a wretched complection. But Electric Bitters always prove a godsend to women who want health, beauty and friends. They regulate Stomach, Liver and Kidneys, purify the blood; give strong nerves, bright eyes, pure breath, smooth, velvety skin, lovely complection and perfect health. Try them. 50c at all dealers.

There is one elephant at least that does not believe in signs or traditions. He is Gunda, a large and old resident of the Aronx Zoological Gardens. One day last week he ruthlessly dented a long accepted Oriental belief that elephants are afraid of rats and mice. About ten days ago keepers in the gardens discovered three freshly laid duck eggs in a nest in one corner of Gunda's cage. They tried to remove them, but the elephant made such a protest they desisted. A great commotion in the cage called Walter Thuman, the keeper, and several attendants on the run. They found Gunda bellowing triumphantly and swinging his trunk over a crushed and flattened rat at his feet. It is the opinion of the keepers that the rat was bent on stealing the eggs when Gunda interferred.

A Dreadful Wound

from a knife, gun, tin can, rusty nail, fireworks, or of any other nature, demands prompt treatment with Bucklen's Arnica salve to prevent blood poison or gangrene. The man who plants a tree is truly a great benefactor to his country. He erects a living monument to his own memory that brightens the lives of his fellow beings, beautifies his native country and makes it a more desirable habitat for man and animals The tree planter may not electrify his neighbors with his eloquence, but he makes them better by his deeds.

For the first time in its history the metropolis of America is to have a "land show," and no event scheduled for 1911 will be of greater interest to the Atlantic seaboard or of more importance to the South than the American Land and Irrigation Exposition to be held in New York City, November 3 to 12. Several millions of people living on and near Manhattan Island are to have their first opportunity to witness an exhibit of products and resources of the soil.

Wins Fight for Life

It was a long and bloody fight for life that was waged by James B. Mershon, of Newark, N. J., of which he writes: "I had lost much blood hemorrhages, and was very weak and run down. For eight months I was unable to work. Death seemed close to my heels, when I began, three weeks ago, to use Dr. King's New Discovery. But it has helped me greatly. It is doing all you claim. "For weak, sore lungs, obstinate coughs, stubborn colds, hoarseness, la grippe, asthma, hay fever, or any throat or lung trouble its supreme. 50c and $1.00. Trial bottle free. Guaranteed by all druggists.

New Mexico has made wonderful progress in developing her arid lands. It is estimated that there are approximately 750,000 acres of irrigated land in New Mexico. It has been previously estimated that there was water supply for $2,000,000 acres but from compilations recently made by experts assumed that there is at least water available for 4,000,000 acres. Six million acre feet is sufficient quantity to cover the entire territory of New Mexico 0.9 inches in depth.

Fish fresh and wholesome can be had at Greenfeld's market. 19-tf.

Twenty-nine persons have been slain by the heat at Chicago so far this spring Dispatches from cities and towns all through the affected territory tell of deaths and prostrations. Insufferable heat has settled down upon all the districts between the Iowa line and the upper Atlantic Coast. In Chicago there were five deaths and a dozen prostrations in one day. Of those prostrated three will die.

Porfirio Diaz, to whom during 30 years all Mexico has paid deference, secretely left the capital at 2 o'clock Friday morning last. Only a few friends whom he trusted followed him to the station. He was bound for Vera Cruz to take ship to Spain. In the distance he could hear the voices of enthusiastic celebrants who were acclaiming the new President Francisco Leon de la Barra, and shouting "viva Madero!"

The old saw says, 'Let a sleeping dog lie.'' Right. Still, when there is much at stake it is better to get a newspaper to do it.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment, Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.
